EDUCATION BACKGROUND:

Bachelor Of Management Information Systems (2005).

OBJECTIVES:

An ambitious, self-motivated individual who has the necessary IT skills, personal attributes and managerial experience required for a successful career at the highest levels. Boasting a strong academic background and a proven record of accomplishments to bring value to a Business, as well as possessing valuable customer facing skills and an agile technical mind that is able to come up with innovative technological and managerial solutions to seemingly intractable problems.

Right now, I am keen to find a suitable position within an ambitious Company/Organization that is renowned for hiring exceptional people and for giving them unparalleled opportunities to build their careers and capabilities. Also seeking challenging for full time position that respects superior performance and positive attitude, makes use of my qualifications, and enhances my professional skills.

PRACTICAL EXPERIENCE:

June 2005 - June 2007: Projects Co-Ordinator and Technical Support At Systems Integrator (SI) Company.

In this job I was responsible for:

- Ensuring the schedule, budget and details of a given task are well organized.
- Making communication with various departments to keep everyone on board about any changes to the project plan.
- Organize reporting, plan meetings and provide updates to Project Managers.
- Assisting customers in identifying and resolving technical errors.
- Setting up and configuring devices or softwares.
- Educating customers about product features and functionalities.
- Upgrading platforms to the latest versions.
- Helps customers navigate through specific applications.
- Guides data storage and retrieval procedures.

June 2007 – Present: Web Developer and Designer, Graphics and Multimedia Expert and Information Technology Consultant At MULTI-TECH (MT) Company.

In this job I was responsible for:

- Designing and developing interactive animations, games, and simulations to facilitate learning and engagement.
- Collaborating with subject matter experts (SMEs) to create creative storyboards.
- Editing and processing audios and videos contents to produce engaging and high-quality materials.
- Ensuring compliance with established branding guidelines and quality standards.
- Delivering final products on-time and within budget.
- Designing and implementing UI/UX for mobile apps, websites, and social media platforms.
- Creating multimedia content including videos, animations, and graphics using Adobe InDesign, Adobe Photoshop, Adobe Illustrator, After Effects and Adobe Premiere Pro also using Adobe Creative Suite.
- Collaborating with cross-functional teams to deliver high-quality designs under tight deadlines.
- Managing design and development of projects from conception to final delivery.
- Implementing users testing and feedback to continuously improve design and implementation solutions.
- Designing and creating motion graphics for videos, films, televisions, web, and other digital media.
- Developing storyboards for motion graphics projects.
- Creating animations, visual effects, and special effects for videos, films, and interactive media.
- Collaborating with writers, directors, editors, and other production staff to develop motion graphics concepts.
- Editing audio files and incorporating them into motion graphics projects.
- Creating 2D, 3D models and animation for videos, films, and interactive media.
- Implementing graphic elements into live action footage.
- Managing motion graphics projects from concept through completion.
- Designing logos, title sequences, and other graphic elements.
- Utilizing softwares such as Adobe After Effects, Adobe Premiere, Autodesk Maya, Autodesk 3D Max, Autodesk Motion Builder, Blender and other animations and videos editing tools.
